PRESIDENT'S NOTE - DECEMBER 1981

Well, December has come, and time to write my last President's Note. It has truly been an enjoyable and eventful year.

Generally, when a President or Politician retires (or gets chucked out), he writes poetic lines describing the beauties of his tenure, his co-workers, and so add nauseum.

To break new ground, I have decided to break new ground, and tell you what I really think of all you turkeys.

First --- To those who failed to show the proper respect for my position and spoke out of turn at meetings -- I will meet you in the parking lot at noon, bring your own oil can.

Second -- To those who worked so hard to keep the Club going, and organized shows, entertainment, meetings, runs and all the other things - Thank you for everything.

- To those who enjoyed themselves, thanks for helping others enjoy themselves by coming and supporting the Club.
- To the executive, thanks for all your hard work, especially Ray Houde for the fun and games.
- To the new Members, glad to see you chose to join, I hope you will get personally involved and help the Club and be helped by it as much as I have been.
- To the entire Membership for making this year a lot of fun and a joy to belong to the AMCM.
- To everyone for enduring and tolerating my sometimes strange sense of humor.

The AMCM has, I feel, a good future. It has a good base of people and Machines, and that seems to be growing. So far, our Membership has avoided petty politiking and cliques, and I hope it always will. These would destroy the AMCM as a fun group, as it has other clubs.

The New Executive has a lot of things to keep occupied with. Shows, Runs, and hopefully the AMCM can become the AMCM, INC. this year. At last we may come of age!

Christmas fast approacheth, and most Machines are tucked away for the winter. Time to think about the holidays, shopping and all the fun of the Season.

After the holidays, spring is right around the corner, so try to get that project completed and on the road for the Spring Run. I am trying to get my Square 4 together by then, so give it your best, try as well.

Some of the long winter evenings (while waiting for parts to arrive) could be used to write a newsletter article, or even a letter to the editor telling the President to stick it in his ear.

I said early in the year that I don't believe in crying about Members that don't contribute. I still believe that (appearances to the contrary), and feel that if the Club offers very little, members will contribute very little. However, this is a two-way street. A small contribution by many makes a Club look alive and encourages everyone to keep it up. On that subject, a word to the New Executive - It is your job to give the Members something for their Membership Fee.

Enough lecturing!

This year has been fun. Thanks a lot everyone.

See you at the next Meeting and the Meetings thereafter I hope.

MERRY XMAS and HAPPY NEW YEAR

AND TO ALL A GOOD NIGHT!

P.S. Is there really a Harley-Davidson Factory?

ED PAUCH

Dear Ed:

Just a short note to let you know I received your letter and will bring up the idea of a Joint Meet at our next meeting. The only set date we have for 1982 is June 20. If there are any filled dates for you, let me know and maybe we can still do this next year.

P.S. Do you know who to get a hold of in Fargo, North Dakota?

Best regards

Rick Wyatt

Ed Fauch, President,  
Antique Motorcycle Club of Manitoba,  
118 Sunnyside Blvd.,  
St. James, Manitoba.

Dear Ed,

On behalf of the Manitoba Motorcycle Club Oldtimers I would like to acknowledge my sincere appreciation of the wonderful response your members showed on displaying your prized Vintage Motorcycles at City Park on Sept. 18th 1981.

The weatherman didn't co-operate but your members sure did. The weather also curtailed the showing of Oldtimers but I can assure you that the ones that showed up, expressed to me how they enjoyed the show. No one can possibly estimate the amount of work, frustration, sweat and tears involved in producing those machines.

It was a very good effort to bring those machines out and we thank you.

Sincerely,

Irvin Lowen
