President's Notes

Well this has been the longest winter – six months of below zero – but we are finally coming out of it. The Jets have gone through round 1 and we're on to round 2 of hockey playoffs, bikes are all over the place in this warmer weather, and we have an approved Sanctioned Ride list for the Vintage plates. It really feels like spring now!

As we discussed at the March meeting, the AMCM have been contacted by some folks at the Manitoba Liquor and Lotteries to have a display of 35 Harleys to coincide with a new HD game. We have landed on the date of July 7th with more details to come. We were also contacted by the Winnipeg Goldeyes to have an AMCM group day: \$20 gets you a seat at the game, and a \$5 voucher to be used at the concessions or souvenir shop. That will be July 15th. Plus, we have heard from High Tea Bakery that not only is the annual Father's Day weekend ride on for Saturday, June 16th, but Belinda (the owner) is going to see if she can rustle up some "pop-up bike-related" shops to set up while we're there. That's building into something fun! It's great to have these businesses reach out and build something very cool and fun with our club!

As with every year, there are changes in the memberships. New members join and we say good-bye to others who don't renew. It's the life of a club with changing faces and new friends joining us. We certainly welcome the new members who will bring some more experience and stories to the club – we are looking forward to sharing some, and hope that everyone enjoys the fellowship in the AMCM and joins in the events.

So, speaking of events, and thinking of the long list of things planned for the club...what are we missing? Your AMCM executive are always seeking your advice about what else we should be doing for the club: other events; more rides; less rides...what do YOU think? Please let me know at the next meeting or ride, or send me an email to let us know how we are doing! Pirates.pearl.rick@gmail.com.

See you at the April meeting...and let's hope there will be a bunch of iron in the parking lot at HD – Winnipeg!

On the cover

Mark has provided the very earliest club picture I have ever seen, 1910. Not only does it show Joe Baribeau first in line on a 1000 cc Indian but it confirms the legislation of the day that motorcycles once registered made their own plates following the government specs (more on that at a later time) until the first motorcycle plate in 1912. My 1911 records show Joe having plate number 50 and you can clearly see plate number 50 on his bike as well as several others. This was the Winnipeg Motorcycle Club which later blended with the Manitoba Motorcycle club (Feb 1911 INC) It was always known that at the time of the formation of the MMC there were two clubs, but the Winnipeg name gave way to the MMC, our club today since 1911. Cheers Ross

WOW

WOW the World of Wheels.
Another successful event for the AMCM .

A weekend for the enjoyment of our hobby by showing our bikes and visit with friends and new members too. WOW is a sure sign that riding weather is around the corner. Participation was seven motorcycles for viewing and a dozen members manning the display. We used our pop-up tent which gave the AMCM good visibility and we gained 3 new members. At the same time we

advertised several summer activities like the **CVMG swap meet**, the **Teulon Ride-in Rally for Project New Hope** and the **Bison Rally in Carman**. 2018 will bring many more events and each one will be fun. The WOW is

only the start to a great riding season. If you weren't there you missed a great show

Teulon businesses donate to third annual Ride-In Rally

Teulon Ride-In Rally treasurer Noreen Stone, left, and organizer Dave Leduchowski, right, accept a \$500 sponsor cheque from Sunova's Teulon branch managing partner Bonnie Benn.

Staff

Mark your calendars — the third rendition of the Teulon Ride-In Rally is coming up this summer.

The event is set for July 14 to benefit Project New Hope Canada, a non-profit and non-political organization that aims to support veterans and their families to get education training and skills after operational service.

Like last year, the fundraising event will take place along Teulon's Main Street, which will be closed from Third Avenue to Fifth Avenue for motorcycles and pedestrians only.

Whether you have a motorcycle or not, there will be plenty of entertainment for all ages, including motorcycle games, bicycle games, skills games and kids' games. There will also be face painting, music, food and vendors all day.

In addition, the Teulon Rockwood Fire Department will have a rescue demo.

The Antique Motorcycle Club of Manitoba has added the Teulon rally to its sanctioned ride list.

The organizers thank Sunova Credit Union and Red River Co-op as major corporate sponsors. Both businesses donated \$500 to this year's ride last week.

Additional thanks go out to Mitch and Adele Chornoby, Steve Shinnie Law Offices, Teulon Tractor & Motor, Kletke Seed Farm, Charison's Turkey Hatchery, Integrity Auto and Vic's Auto.

They would also like to thank Teulon town council for their support and help, along with CAO Doreen Steg and Glenn Marmonier of public works.

Rally organizer David Leduchowski said without the support, the rally would be impossible to host.

"This is a true local community event that benefits our veterans. The entire board of Project New Hope Canada are Interlakers," he said in an email.

"You need not have a motorcycle or even an interest in motorcycles to have fun at this event. Bring your family, bring your kids, bring your dog, bring an appetite ... this is fantastic summer outdoor fun that benefits a worthy cause."

David Leduchowski and Project New Hope treasurer Noreen Stone are still accepting sponsorships. Please email Dave at davidleduchowski@gmail.com if interested.

"A motorcycle is a bicycle with a pandemonium attachment and is designed for the especial use of mechanical geniuses, daredevils, and lunatics."

- George Fitch
The Atlanta Constitution
Circa 1916

A George Fitch Story

A MOTORCYCLE is a bicycle with a pandemonium attachment and is designed for the special use of mechanical geniuses, daredevils and lunatics.

The motorcycle is equipped with a motor small enough to be put in a large pocket and loud enough to fill a coliseum comfortably. This motor is connected with the rear wheels of the bicycle, and when it is in the mood will revolve the wheel with tremendous speed, thus causing the bicycle to proceed from hither and yon over buggies, pedestrians, fences and small outbuildings.

A motorcycle is really a miniature automobile with full-sized noise, smell and dirt output. It is not started by cranking, however, but by pedaling the whole machine along the road until the motor emerges from its coma and gets on the job. An automobilist can be detected by his vast overhanging shoulders and calloused hands. A motorcyclist, however, may have arms like pipestems, but his legs are seven sizes too large for him.

A motorcycle is not as comfortable as a camel or a lumber wagon, but it is very swift, and there is nothing that feels more like flying than to ride a large baritone motorcycle over the country roads at 50 miles an hour, leaping lightly from bump to bump — except to leave the machine when it has struck a rock and to soar swiftly through the unstable atmosphere until some jagged section of the United States interferes with further progress.

Motorcycles are very useful and have almost annihilated distance and cheap clothes. They should be ridden in costume, except by very wealthy and careless men. A pair of leather pants with asbestos lining and a two-bushel hip pocket for tools, a padded vest, heavy gloves, a pair of goggles, and nose and shin guards make a tasty and useful rig for the cyclist. Dressed in this fashion the enthusiast can enjoy himself to the full as he caroms from tree to tree and gorges himself with dust, oil and excitement.

Motorcycles are not as fatal to pedestrians as automobiles, because they can only run over him with two wheels. But they should be treated with respect at all times and should not be interfered with when in a hurry.

Marvelous records are made by intrepid mahouts who have driven large double-barreled motorcycles 90 miles on a board track and most of the way up the golden stairs in one hour by the clock.

Motorcycles are much cheaper than automobiles, and there seems to be no practical remedy for this, and the industry is unfortunately not in the hands of a trust. A good machine can be purchased for \$150. However, if the devotee does not possess \$150 he can get almost as good results by drinking a little lubricating oil, inhaling a vacuum cleaner and setting off two bushels of firecrackers between his legs.

DID YOU KNOW???

That Chas P has done over 340,000 MILES and counting on his R90/6 BMW. That's over half a million kilometres!

He bought it new in 1975 and averages about 8000 miles every year and rarely misses an AMCM meeting or event. He also has a 1970's period sidecar which he still hooks up occasionally to give his grandkids a ride, or once for an 80 plus year old lady whose daughter had asked him to fulfill her mothers bucket list and give her a ride around Winkler!

The sidecar was also hooked up for family holidays and many trips to Sturgis, with wife Viola on the pillion and his two little girls in the sidecar, plus a tent and all their camping gear and clothes! The 900cc Airhead is still almost stock original with classic BMW black paintwork and twin white pin-striping. Only non-stock items are a period Vetter Windjammer fairing, a Dyna III electronic ignition and some LED light conversions. Chas keeps his old airhead very well maintained mechanically and is a wizard at setting those Bing carbs to do a beautiful "potato- - potato" idle, by feel and sound only, and says he has changed "too many tires to count!", and repaired a puncture with patch kit on the road "more than once!"

Some Tech Stuff.

TCLOCS

For many parts of the country, the snow has or is melting. With the sun shining and the mercury rising, we are all getting that itch to get back on two wheels.

If you are not lucky enough to live in a climate that offers year round riding, your motorcycle has probably been dormant for at least a few months. So, consider as you saddle up this spring, the first ride of the season requires some extra awareness. Make sure to run your bike through TCLOCS as explained below. To help you remember, the Motorcycle Safety Foundation suggests the acronym TCLOCS.

T= Tires and Wheels

C= Controls

L= Lights & Electric

O= Oil, Gas, Fluids

C= Chassis

S= Side Stand

Even if you stored your motorcycle in a closed garage, trickle charged your battery, your bike is still subject to deterioration and damage. Critters chew, cables come loose, hoses can crack.....you get the idea. Before you hit the road, always give your bike a full top down inspection. Include checking everything from tire pressure to fluid levels before you put wheels to pavement. Your owner's manual has more specific information regarding the items on this check list.

I know most of us do this but in our hurry to get back out there sometimes we rush. That can come back to bite us in the rear!

Stay Safe out there!

Blast from the past

Motorcycle Matters

by Bert Bently

1930 HENDERSON 4

For the past 52 years I have been interested in motorcycles and had always wanted a Henderson, which is a large 1300 c.c. in-line 4 cylinder machine. For five years from 1960 to 1965, I searched diligently for a sample but they are as scarce as hens teeth. However, during one of my periodic calls to motorcycle people in Minneapolis I mentioned my wishes to a fellow collector. A couple of years later I received a note from him saying that a Mr. Maynard Whetstone of Winona Minnesota, who collects Indian fours, had come across a very good sample of a Henderson

I got in touch with Mr Whetstone by phone and learned that the machine was a 1930 model KY, which was the second last year of production of this fine motorcycle. The deal was closed over the phone subject to my approval of the photograph which would be mailed to me and which subsequently confirmed the deal.

In the meantime I paid a visit to Her Majesties Collector of Customs and learned to my horror that second hand motorcycles could not be imported into Canada however the customs man, who had, believe it or not, once owned a Henderson was most helpful, and we discovered that antique motor vehicles could be imported. After Mutual discussion it was agreed that a Henderson was an antique motor vehicle so the die was cast.

It was then I learned that the trucking firm would not except the machine unless it was crated. More long-distance phone calls to Wynonna and Mr. Whetstone finally agreed to crate the machine.

It arrived in Winnipeg in good shape on December 30, 1965.

My long search was over and during the search I had collected six other antique machines. Perhaps it was worth the waiting after all.

In 1977 I decided to reduce my collection of bikes and the "Hen" is now in Grand Forks in the garage of Lynn Hapster .

See you all next month Bert Bentley

 - iv) Ross will take this forward for approval, and we expect to have it back for us before the end of April and ready for riding season!
- e) Club Regent Casino: Ross received an inquiry from the Lotteries Commission and talked with a guy about an opportunity to get our bikes on display. Here's the rundown:
 - i) They are introducing a Harley slot machine and are launching it April 15th.
 - ii) Sometime after within 90 days (July 15th) they want to know if we would like to have a 1 day Harley show where 35 HARLEYS can be inside the casino. This would be a mix of vintage and modern.
 - iii) Ross said we probably would need around a \$1,000 donation and some free buffet and drink tickets to make it worth while to the membership. He didn't even flinch.
 - iv) He awaits our response next week. Probably one Saturday or Sunday of our choosing
 - v) Million dollar question. Can we rustle up 35 Harleys for one day.
 - vi) Let's pick a date and circulate amongst the group...Ross will manage this.
- f) Winnipeg Goldeyes opportunity:
 - i) Group tickets for a game: attendees pay \$20 and get a \$5 concession voucher and a ticket into the game
 - ii) If we have 50 attendees, we may be able to get our bikes lined up on the concourse for all game attendees to see. Family, friends can attend...we would all be sitting in the same area of the park.
 - iii) Let's pick a date and circulate amongst the group.
- g) Sadie Grimm Induction into the Hall of Fame
 - i) Thanks from the organising team to those who attended the fundraiser on March 8th – over \$2,000 was raised!
