Editors Note

We had a very nice September meeting, nice to see a new member join. It rained lightly while we were inside, and I got to ride the Sq4 home in typically British cool damp air - It sure runs nice in that stuff.

Welcome to Steve Bahr, of Winnipeg. Steve has a number of vintage Kawasaki and Honda bikes.

The Corn Roast was a success both socially and financially. Again thanks to our gracious hosts for their facilities and the food preparation.

The auto Toy Run was nice, but not as well attended as last year, probably since it was a cool day. There have been a lot of activities this year, maybe too many. Some were cancelled due to overlap in dates.

The Tin Lizzie car-bike-hog barbeque was cancelled due to rain and cold.

I have been made aware of a probably rare (pre 1914) motorized bicycle, probably a Motosacchoe (Swiss made) in amazingly complete and mechanically preserved condition. The owner wants to trade for a stationary engine - see Notice elsewhere in this issue.

Upcoming Events

AUTO HAZMAT COURSE- THE NIGHT OF DECEMBER 2 HAS BEEN SET ASIDE FOR AMCM AND CVMG - DO NOT MISS THIS - A CERTIFICATE WILL BE MAILED OUT TO PARTICIPANTS.

A suggestion was proposed for a Christmas "Pizza and Beer Night" in lieu of a December meeting (December 8????) at the Boston Pizza same as last year - Sounds like a good plan!

MAAC Report

The September meeting was fairly productive. MAAC is healthy with 34 clubs represented and a decent budget.

A reminder to all clubs to get their vehicle census forms in ASAP. I will bring some to the next meeting of AMCM.

The collector plate continues to slowly move toward reality, DMV has completed a survey of other areas that have such a plate and will move forward to the next step. The plate is likely 1 - 2 years away.

Comment was made that a number of collector cars had been damaged in accidents this summer, and MPIC has given good satisfaction.

HAZMAT - See upcoming events!!!!!!

Help Needed!!! #1

Your fearless Editor (me) is looking for a stationary engine. And not just any old clunker. (No, the Sq 4 runs just fine)

I am looking for a 1 1/2 HP "MANITOBA" engine, which was manufactured in Brandon.

If anyone has any leads or ideas, please let me know.

Ed Pauch 832-0255

Help Needed!!! #2

As the year closes, we come to that dreaded time of year (no, not Halloween) known as election time. It is about time, especially now that we have some new members, that we have some new executive members. This will have to be discussed and hopefully put in place in January. How about you????
