## Minutes of the October Meeting

As a result of the dismal weather encountered, no one ventured out to the meeting on 2 wheels. A far cry from the weather this time last year. Oh well retribution had to come. A good turn out was encountered with 20 members & 1 guest present. The guest was Gord Peters who rides a R100RT. We did not find out if this was a planned effort to quell the other European make of note but it certainly had the Beemers thinking they were on a role!!!!!!

Down to business:

Secretary had nothing to report for the meeting.

Treasurer reported we had \$1372 in the bank with a membership standing at 41. The issue of joining the NAAACCC was again raised & it was decided to leave this until the New Year. Librarian was not present so the highlight of the evening – the 50/50 draw had to be cancelled. Property Manager reported he had found some more items to add to the Selkirk stockpile. Jack-ets were discussed as everyone was feeling the cold. Style was again the subject of some disagreement but price & colour was required. Info was required.

Editor felt that the current logo did not fit well with the normal type of artwork being suggested for the jackets & agreed to have a go at an alternate for the next meeting. 2002 club rosters were issued to those present, warts & all.

The President did say some thing at the meeting but I'm blown if I can remember that bit & (having lost my notes of the gathering!!!!) I will have to offer very humble apologies to our leader for not being able to pass on to the absent membership his words of guidance from the helm, which conveniently leads me to the main topic of the year:

### **Coming events:**

**Our elections** – as you are all aware the its that time to stage a coup de tat & replace those tyrants at the top table together with other section leaders. So do not forget 26 November is the night to put up or shut up. (I guess its going to be a quiet meeting!!)

**Our Reminiscing of the Riding Year supper** will be held at David Pritchard's shop facility at 925 Wellington Crescent on the 10<sup>th</sup> December at 7.00PM. Wives/ partners are more than welcome. Food will be provided by the club but bring your own refreshments. Our invitation is extended to all members of the CVMG to join the throng. Our very grateful thanks are extended to David for offering us the hospitality of his home.

**January with host Ross** – has yet to be confirmed.

Ross to advise

**3<sup>rd</sup> Annual rally** – Friday 27 to Sunday 29th June

(note the holiday this year falls on Tuesday so no luck there.)

Please get the dates booked. Posters are being worked on as we speak.

## **MAAC Report- October Meeting**

### **General**

In spite of the poor weather, this summer's events seem to have been reasonably successful. The MAAC meetings are on again after the summer layoff, and action is planned on a number of fronts. At this time MAAC is in good financial condition.

MAAC is establishing a scholarship fund for students at River East and Murdoch McKay Collegiates, for mechanic students.

Dues, insurance premiums, and event calendar dates are required soon.

I provided my E-mail address for easier mailings.

### **By-Laws**

Efforts in combating restrictive derelict vehicle laws have produced some good results, and at present MAAC is helping a Municipality near Brandon write an acceptable by-law. As well, research is being done by a local law firm, to determine the feasibility of modifying existing bylaws.

### **Vehicles**

On the vehicle front, a number of initiatives are being pursued, including a Collector vehicle plate (to exempt from emissions testing), multiple registration, Year of Manufacture plates, and changes to the MVB regulations as to bumpers and fenders.

My concern is that with all these items on the table, the beaureaucrats will merely keep stalling to avoid all that work. I suggested (as did others) that the list be pared down and some progress be made for a change.

### **NAAACCC**

Wally Breer reported that efforts are being made to address concerns with pending Government regulations and the Kyoto Accord. These could include emission testing on a dyno under load. An exemption for 20 year old vehicles is being suggested.

I feel we should support these efforts. At \$1.50 per member per year, this is darn cheap insurance.

### **Comment**

Unfortunately, a MAAC meeting is somewhat like the Chinese Water Torture, as the same things seem to be discussed repeatedly.

Should we stay with MAAC? Well, from an action standpoint, my feeling is –no. They seem to be preoccupied with being an "organization". From the cost of insurance – yes. We could not buy at that price elsewhere, and we do get credit for supporting the hobby – so I feel we should continue.

Should we join NAAACCC? – I think so – if they lose, we lose too.

**WANTED:** Borrani alloy rim for Norton drum WM2 x 19" 40 hole.  
Norton & Dunstall parts . What have you?
